The Best Things Are Built to Last.

For decades, Coffey County farmers have trusted our marketing experts and agronomists for unbiased guidance and proven strategies to grow and succeed.

Through shifting markets, changing times, and new challenges, we adapt, innovate, and stay ahead — ensuring farmers have the best strategies to thrive, no matter what comes next.

Because farming isn't just business—it's a legacy built to last.

Family owned • Reliable • Trusted for generations

Reliable power for 41 years and counting

As Kansas' only commercially operating nuclear power plant, Wolf Creek generates 20.7% of the state's power by producing 1,250 megawatts of electricity - enough to power more than 800,000 homes. Employing more than 1,000 full-time and contract employees, Wolf Creek has established a long-standing legacy of safety and reliability. It also serves as a vital economic engine for Coffey County and the surrounding areas.

Thank you for supporting the county fair, our veterans & local youth!
